

# 2020 NEW TEACHER ORIENTATION TESTIMONIALS

*This was the most efficient, effective, and interactive professional learning I've ever taken part in. I feel like I've learned so much that will help me navigate this new online school environment. It was very well thought out and planned.*

*I have never been so warmly welcomed!*

*I really felt connected with the CCSD community. It is amazing how this was able to occur given our current circumstances. I am hopeful to create this kind of community in my classroom.*

*All facilitators were welcoming, excited, and full of life. Most districts seem to have facilitators that have compassion fatigue or apathy. CCSD's NTO was motivational, inspiring, and informative.*

*I feel so much more prepared, inspired, and that if I run into any trouble I WILL have help! This is just truly remarkable!*
