FY2020 Pre-ID Data Element Detail

Overview

The **Pre-ID** data collection is designed to help school systems report accurate demographic and program data on selected state-mandated assessments. Data collected through the Pre-ID data collection is used to generate labels that are included among the test materials sent from the test vendor to the school systems. Use of Pre-ID labels alleviates the need for students and/or teachers to bubble demographic and program data on answer documents. As a result, school systems are able to accurately match assessment records to student record data reported at the end of the school year.

Pre-ID is setup to allow access to the following district level users: FTE Coordinator, Student Record Coordinator, and the Assessment Coordinator. These individuals are able to upload files, delete data, and access reports.

There are two data collection cycles for Pre-ID labels.

1. **Cycle 2:** In September, data is collected to generate labels for the Georgia Milestones End of Course for students in grades 7-12.
2. **Cycle 3:** In January, data is collected to generate labels for the Georgia Milestones End of Course (EOC) for students in grades 7-12, and the Georgia Milestones End of Grade (EOG) for students in grades 3-8.

General Information

Pre-ID data is reported for active students. Withdrawn students should not be extracted and reported in Pre-ID as they will not require labels for the designated test types.

The Test IDs reported for a given cycle must be valid for that cycle. See the Pre-ID Transmission Dates to determine which Test IDs are valid for each cycle.

A warning will be generated for a given school and test ID, if either of the following conditions is true:

- No SRC codes are reported; or
- More than 25% of the students report a SRC code.

FY2020 Pre-ID Data Element Detail

Data Elements

Listed below are the data elements collected in each Pre-ID data collection. Although the same type of information is reported in each cycle, it is important to note that each record must reference the test ID that is valid for the cycle and the student's grade level. Edit rules will apply to the data as it is processed. To review the edit rules, see the 2016 PRE-ID LABELS FILE LAYOUT found at the following website:

<https://www.gadoe.org/Technology-Services/Data-Collections/Pages/FY2020-Pre-ID-Labels.aspx>

COURSE NUMBER

COURSE NUMBER is the 9-digit number designating an official course as specified in SBOE Rule 160-4-2-.03 or 160-4-2-.20. Course numbers are only valid in Pre-ID when reporting data for EOC labels (TEST ID is 12).

COURSE SECTION NUMBER

The **COURSE SECTION NUMBER** identifies a specific group of students taking a course number. The course section may contain alpha and/or numeric values. Numeric values may go up to 999. Special characters are not valid. The course section number is only allowed when the TEST ID is 12.

ENGLISH LEARNER (EL)

ENGLISH LEARNER (EL) indicates whether the student has been identified as having limited proficiency in English (**ENGLISH LEARNER (EL)='Y'**). Once a student has tested out of the **ENGLISH LEARNER** program, the student is monitored for 2 years to ensure that the student no longer requires **ENGLISH LEARNER** services. The first full year that a student is out of the **ENGLISH LEARNER** program, the student is marked **ENGLISH LEARNER (EL) = '1'**. The second full year that a student is out of the **ENGLISH LEARNER** program, the student is marked **ENGLISH LEARNER (EL) = '2'**. After two years of monitoring, the student should be reported with **ENGLISH LEARNER (EL) = '3'** (No longer **EL**; no longer monitored; tested out of **ENGLISH LEARNER (EL)** 3 years ago); the next year, **ENGLISH LEARNER (EL) = '4'** (No longer **EL**; no longer monitored; tested out of **EL** 4 years ago). After 4 full years out of the **ENGLISH LEARNER** program, the student would be reported with **ENGLISH LEARNER (EL) = 'F'** (Former EL Student) for all subsequent years.

If the student was incorrectly report as an **ENGLISH LEARNER** in the past and was never qualified as an **ENGLISH LEARNER**, report the student with **ENGLISH LEARNER (EL) = 'I'**.

Must equal one of the following codes:	
'Y'	Yes, student has limited English proficiency.
'1'	First year out of EL Program; monitored year one.
'2'	Second year out of EL Program; monitored year two.

FY2020 Pre-ID Data Element Detail

'3'	No longer EL; no longer monitored; tested out of EL 3 years ago.
