

Administrator Historical Dashboard

GA Milestones (GMAS) Results for Districts and Schools

 Log into the SLDS Administrator Dashboard. The default landing page displays the most recent District/Schoollevel EOG results for Elementary and/or Middle schools. High Schools see most recent EOC results. (Districts can opt to view school-specific data by selecting a school name from the School dropdown).

2. The landing page displays the data in chart format. **Districts** see two years of GMAS results, as compared to the State results. **Schools** see two years of GMAS data as compared to the District and State.

Use the filters located above chart data to define what data is presented.

 Click color-coded bands to display additional information. District report displays first by + School Name. Click + sign to expand the report to see student names. School report requires no expanding to view student names.

Aimazan, Rico C	0002971290	08	FEMALE	WHITE NOT OF HISPANIC ORIGIN			Y								4 -

 An additional grade comparison chart is available by clicking the More Detailed Data link located in the upper right-hand corner of the data.

 The chart provides Districts/Schools a two-year comparison of their most recent GMAS data, broken down by grade level. (Follow the instructions noted in Step 3 above to see corresponding reports).

Note: Click on any student name in the report to view GMAS data on Student Profile Page.
