1. Log into the SLDS Administrator Dashboard. The **More Detailed Data** link is available on many of the SLDS data pages.

2. **More Detailed Data** provides users with additional detailed information relative to the data displayed on the initial or selected landing page.
3. In this example, when a user logs into the SLDS Administrator Dashboard, the link is displayed in multiple sections of the **Test Administration (GMAS)** default landing page.

4. The **More Detailed Data** displays as a breakdown of the GMAS results by grade level in both **chart** and **table** format.

Important: **More Detailed Data** provides different data results depending on what page it is initiated from. It may not always be a grade-specific breakdown as shown in the example above.
