

PreK Assessment

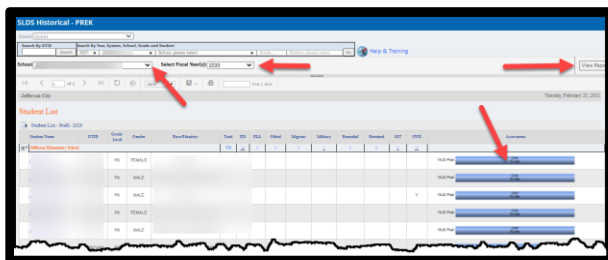

PreK Assessment Results - Operational

1. Click SLDS Operational, then click PREK.

2. PreK - Operational, displays current enrolled students' (most likely now in Kindergarten) achievement in their PreK assessment taken the previous year, regardless of what GA public school the assessment was administered in.

3. District users must first select a school name from the School dropdown, verify the correct Fiscal Year, and click the **View Report button** to obtain data. PreK data displays a Student List report. In the Assessment column, **Click to View** the blue color band.

4. The report displays domain/standards related proficiency information.

5. The same data can also be viewed by clicking a name from the Student List report. Scroll down to the State Assessments section, and **Click to View** the PreK GAP4 assessment
