

Saving Resources to A New Board

1. SLDS users can create multiple boards inside TRL (Teacher Resource Link) to organize resources. Begin by selecting a resource or multiple resources in TRL. List view is used for illustration purposes.

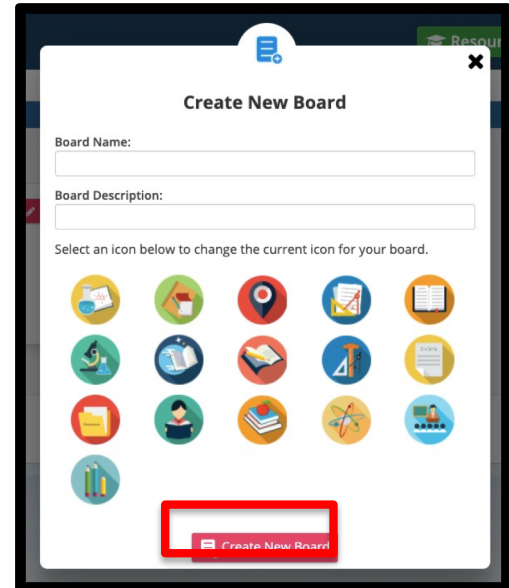

2. Once a resource or multiple resources have been selected, click the Add to Board button. 

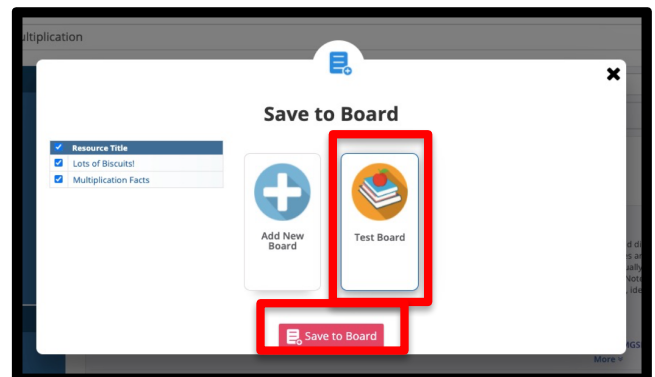

3. A pop-up box will appear, listing any resources selected for saving to a board. Existing boards will display in the center.

4. To create a new board, click **“Create New Board.”** Name the board and provide a description (if desired – description is optional). Click **“Create New Board.”**

5. To assign the resources to the new board, select the board desired, then click the **“Save to Board”** button. Resources selected will then be placed in the selected board.

For additional information on saving resources, reference the *TRL: Saving Resources to an Existing Board 5 Steps*.
