

Navigation Tool Bar

1. Log into SLDS to open your dashboard. Scroll down to the Navigation Tool Bar.

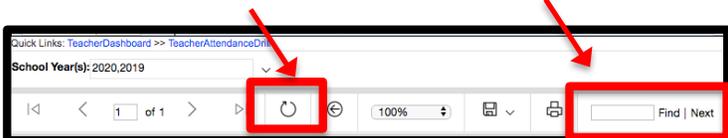

2. Selecting SLDS opens the "Classic View." Otherwise, clicking a labeled tile allows access to the selected data. Once inside a data area, use the **internal back arrow** to navigate back one page at a time. **DO NOT** use the browser back arrow to navigate!

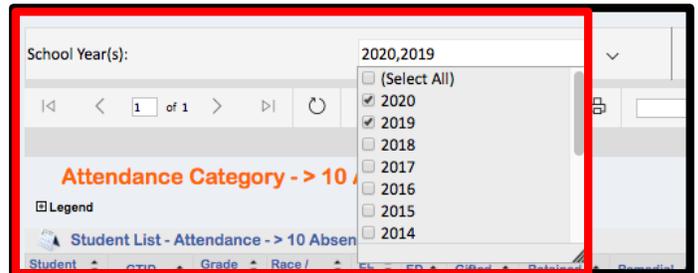

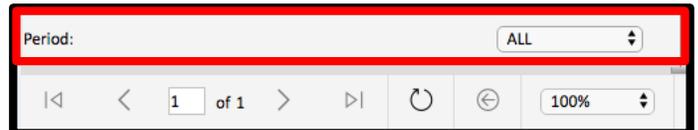

3. The **Find Text** feature allows you to search for specific text on the page. The  will refresh the Navigation Tool Bar.

Refresh Find Text

4. The drop-down option allows you to select a specific class period once in a data area or academic years on data reporting pages. After an option has been selected, click  to apply the selected filter. (See *Class Period Selection for more information on selecting class periods.*)

5. The **Floppy Disk icon** allows you to export the data page you are currently on by selecting your preferred method of export from the options available. The **Print icon** allows you to print the page you are currently viewing. (See *Exporting for more information on Exporting options.*)
