

# Student Growth Percentile (SGP)

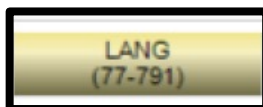

## Student Growth Percentile on Student Profile Page

1. On the **Student Profile Page**, scroll down to the **Student Growth Percentile** section located below the **State Assessments** section.

2. Each colored band displays the Student Growth Percentile followed by the scale score. As shown in the legend, **Red** = Low Growth, **Green** = Typical Growth and **Gold** = High Growth.

In the example below, the student was in the 77% for growth (**high** growth) and had a scale score of 791 in the area of Language.

3. **Student Growth Percentiles** allow you to identify the amount of growth achieved by the student and can be compared to assessment results.

NOTE: **Student Growth Percentiles** require two years of comparative assessment data; therefore, they are generally available for students in **grade five** and up.
