

Teacher Dashboard - Achievement

Richard Woods, Georgia's School Superintendent
"Educating Georgia's Future"

Student Roster - Achievement Column School Year(s) Filter

1. Teachers are able to access ALL state assessment results for a particular student going back to the 2006-2007 school year, provided that the student was enrolled in a Georgia public school district each year. From the **My Schedule** tile, access the Student Roster by **clicking on a section or the All Students link** in the schedule box.

2. By default, only the two most recent assessment years' results are displayed in the **Achievement** column.

3. A teacher can view any and all years of available results by clicking on the **dropdown arrow** beside the School Year(s) Filter, and selecting the desired years (or Select ALL to view all available years), then clicking **View Report** on the right.
