Request Training
Submit a Training Request Form for your District or School, and a GaDOE trainer will contact you to schedule FREE training. Here are the various training modules we offer:

Teacher Training Series - 7 Sessions (35-60 Minutes each) plus a Refresher

- Data Overview
- TRL (Teacher Resource Link) Overview
- TRL (Teacher Resource Link) Workshop

SLDS Webinars

Training Resources
- 5 Step 5 User Guide
- CAA Resources in TRL
- Conference Presentations
- Why Should Admin Use SLDS - Flyer
- Why Should Teachers Use SLDS - Flyer
- Parent Portal - Flyer

SLDS Role error

Resolution: Assign an approved Role or Confirm the ROLE has been “provisioned” on the DOE side. Appears that the user has an SLDS ROLE that has not been setup correctly. This could be one of two things:

- Profile Manager or “Super User” has created a ROLE inside of SIS, but that ROLE has not been provisioned on the DOE side.
- Profile Manager has created a role - but the Role name in Profile Manager does not match exactly the token inside of the SIS.
**PowerSchool**

**Edit User Access Role**

- **Name**: IEP District Admin
- **GA LDS Token**: IEPDA

*Do not assign Security Group*

**TOKEN**

Minus "GA DOE"
To add/delete/edit Roles to access SLDS

Only One USER Role is able to access the Profile Manager – that is the D5U not to be confused with the TKES Super User.

As the D5U user – the only application available is the Profile Manager.

The new role CANNOT have an “&” in the name/token.

The new Token in the SIS must match EXACTLY the SLDS Role Name.
By default – this is what the “D5U” / “Profile Manager” will look like. Notice there are NO other applications available.

Instructions:
- To edit/delete, click on the role name.
- If an application is selected, which has containers, its required to select a container.
- If an application is selected, which has containers, at least one component has to be selected in the selected container.
User can Print/Export to Excel the ROLES and their associated “levels”
<table>

</tbody>
</table>
You can select One Role to view or One Application to view:
- Role
- Application
By default it displays the first Role.

You can change Role by selecting the desired Role from the 2nd Dropdown.
Only ONE Role will be displayed at a time. Changes can only be made to one Role at a time. You should SAVE before moving to next Role.
To EDIT an existing Role Name
To ADD a new ROLE
Role Name must match exactly the SIS Token.

Will remove Teacher Dashboard

To CLONE an existing ROLE
To assign access to a ROLE
By clicking on the PLUS [ + ] sign beside the Application (blue cube), You open the options for the Applications. This is usually the LEVEL of access.
A ROLE can have DIFFERENT levels for different applications— for example a District level in SLDS, but a School level in CLIP (or vice versa)
By clicking on the PLUS [+] sign beside the Container (folder), you open the options for the Container, which is Components.

To access components of the ROLE
**Before new Role can used:**

New Role will need to be created using the “Profile Manager” with the correct applications assigned.

New Role will need to be added to your SIS. This may require you to create the Role or your SIS vendor must create the Role.

Once the New Role has been completed on both sides, the New Role can be used (assigned) to users in your SIS.

Best Practice- always test the new ROLE before assigning it to a user.
Example of Spreadsheet that can be used (optional) this was created to help you manage your various roles.
