Recent Updates for 2015

November 2015

Statewide Longitudinal Data System (SLDS)

Winter 2015 Milestones EOC results are now available for district users, school users, and teachers to view in SLDS once they are published by each district's assessment coordinator. Once published, teachers will see the EOC results on their Teacher Dashboard. School level users may see a "BLANK" screen until the results are published. District level users will find the 2015 Winter EOC Milestones by selecting "Historical Dashboard" then "Assessment" and finally selecting "Milestones EOC" from the dropdown.

On the day after the results are published, they will also be displayed on the "Operational Dashboard" and on the teacher's State Assessment Classroom Performance (SACP) dashboard. The Operational/SACP Dashboard is where the user can find performance levels at the Domain level.

March 2015

Statewide Longitudinal Data System (SLDS)

The Gifted Eligibility Form is now available in SLDS. With the implementation of the new form, school system personnel can enter a student's results in the four areas of gifted evaluation. You may click here to view the Gifted Eligibility Form User Guide. Users must be provisioned for use in the Profile Manager by the district superuser. Click here for instructions for provisioning users.

January 2015

Statewide Longitudinal Data System (SLDS)

- The SLDS Lexile bands have been updated to match the 2012 Common Core "stretch" text measures. The "stretch" text measures represent the demand of text that students should be reading to be college and career ready by the end of Grade 12. Click here for more information about Lexile bands and stretch text measures.

- The High School Feedback Report is now accessed through its own separate menu button on the SLDS toolbar. Access to HSFB Report can be granted to administrators by the district superuser through the Profile Manager.

Assessments loaded:

- GHSWT Summer 2014 GPS & QCC
- GHSGT Summer 2014
- EOCT Spring 2014 Retest
- EOCT Summer 2014 (main and retest)
