# Testing Brief <br> Grade 5 Writing Assessment <br> Winter 2014 Administration <br> March 5-6, 2014 

Georgia law (O.C.G.A. §20-2-281) states, "writing assessments shall be administered to students in grades three, five, eight, and eleven." The purpose of the Grade 5 Writing Assessment is to assess student writing skills and improve writing instruction. The Grade 5 Writing Assessment provides students, their parents, and future middle school teachers information about the students' writing skills as they exit elementary school. The assessment consists of an evaluation of each student response to a randomly assigned prompt. Students are assigned a topic from a prompt bank representing three genres: narrative, informational, and persuasive. Students are allowed approximately 120 minutes to write their essays.

The scale score range for the Grade 5 Writing Assessment is 100 to 350 . Writing scores are also reported in the following performance levels: Does Not Meet (100-199), Meets (200-249), and Exceeds (250-350).

## Key Findings: All Students

- Eighty (80) percent of all students achieved the Meets or Exceeds standard set for writing, a one (1) percentage point increase from seventy-nine (79) percent in 2013.
- Since 2008, the percent of all students achieving the Meets or Exceeds standard set for writing has increased by three (3) percentage points from seventy-seven (77) percent in 2008 to eighty (80) percent in 2014.
- The 2014 mean scale score for all students was 214 , a one (1) scale score point decrease from the mean scale score of 215 in 2013.
- The 2014 mean scale score of 214 for all students shows no change from the 2008 administration.

## Key Findings: By Race/Ethnicity Groups

## Asian Students

- Ninety-two (92) percent of Asian students achieved the Meets or Exceeds standard for writing, a one (1) percentage point increase from ninety-one (91) percent in 2013.
- Since 2008, the percent of Asian students meeting or exceeding the standard has increased by two (2) percentage points from ninety (90) percent in 2008 to ninety-two (92) percent in 2014.
- The 2014 mean scale score for Asian students was 236, a one (1) scale score point increase from the mean scale score of 235 for the 2013 administration.
- The 2014 mean scale score of 236 for Asian students shows an increase of three (3) scale score points over the 2008 administration's mean scale score of 233.

## Black Students

- Seventy-three (73) percent of Black students achieved the Meets or Exceeds standard for writing, a one (1) percentage point increase from seventy-two (72) percent in 2013.
- Since 2008, the percent of Black students meeting or exceeding the standard has increased by two (2) percentage points from seventy-one (71) percent in 2008 to seventy-three (73) percent in 2014.
- The 2014 mean scale score for Black students was 206, a one (1) scale score point decrease from the mean scale score of 207 for the 2013 administration.
- The 2014 mean scale score of 206 for Black students shows a decrease of one (1) scale score point from the 2008 administration's mean scale score of 207.

## Key Findings: By Race/Ethnicity Groups (Continued)

## Hispanic Students

- Seventy-nine (79) percent of Hispanic students achieved the Meets or Exceeds standard for writing, a one (1) percentage point decrease from seventy-eight (78) percent in 2013.
- Since 2008, the percent of Hispanic students meeting or exceeding the standard has increased by six (6) percentage points from seventy-three (73) percent in 2008 to seventy-nine (79) percent in 2014.
- The 2014 mean scale score for Hispanic students was 211, a one (1) scale score point decrease from the mean scale score of 212 in the 2013 administration.
- The 2014 mean scale score of 211 for Hispanic students shows an increase of two (2) scale score points over the 2008 administration's mean scale score of 209.

## White Students

- Eighty-five (85) percent of White students achieved the Meets or Exceeds standard for writing, a one (1) percentage point increase from eighty-four (84) percent in 2013.
- Since 2008, the percent of White students meeting or exceeding the standard has increased by four (4) percentage points from eighty-one (81) percent in 2008 to eighty-five (85) percent in 2014.
- The 2014 mean scale score for White students was 220, representing no change from the 2013 administration.
- The 2014 mean scale score of 220 for White students shows no change from the 2008 administration.

## Key Findings: By Program

## Regular Program Students

- Eighty-four (84) percent of Regular Program students achieved the Meets or Exceeds standard for writing, a one (1) percentage point increase from eighty-three (83) percent in 2013.
- Since 2008, the percent of regular program students meeting or exceeding the standard has increased by two (2) percentage points from eighty-two (82) percent in 2008 to eighty-four (84) percent in 2014.
- The 2014 mean scale score for Regular Program students was 218, representing no change from the 2013 administration.
- The 2014 mean scale score of 218 for Regular Program students shows no change from the 2008 administration.

## Special Education Students

- Forty-seven (47) percent of Special Education students achieved the Meets or Exceeds standard for writing, a two (2) percentage point increase from forty-five (45) percent in 2013.
- Since 2008, the percent of Special Education students meeting or exceeding the standard has increased by four (4) percentage points from forty-three (43) percent in 2008 to forty-seven (47) percent in 2014.
- The 2014 mean scale score for Special Education students was 185, a one (1) scale score point decrease from the mean scale score of 186 in the 2013 administration.
- The 2014 mean scale score of 185 for Special Education students shows no change from the 2008 administration.

## English Learners

- Fifty-one (51) percent of English Learners achieved the Meets or Exceeds standard for writing, a one (1) percentage point decrease from fifty-two (52) percent in 2013.
- Since 2008, the percent of English Learners meeting or exceeding the standard has decreased by two (2) percentage points from fifty-three (53) percent in 2008 to fifty-one (51) percent in 2014.
- The 2014 mean scale score for English Learners was 191, a two (2) scale score point decrease from the mean scale score of 193 in the 2013 administration.
- The 2014 mean scale score of 191 for English Learners shows a decrease of two (2) scale score points over the 2008 administration's mean scale score of 193.

## Key Findings: Closing the GAP

- The 2014 Grade 5 Writing results show that growth has occurred in the achievement levels of some student groups. When comparing the 2014 results to 2008, the following groups show a closing of the gap in terms of the percentage of students meeting or exceeding the standard:
- The achievement gap between Hispanic and White students has decreased by two (2) percentage points from $8 \%$ to $6 \%$, in terms of the percentage of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing, wherein gains were made by both groups, but gains made by Hispanic students exceeded those made by White students.
- The achievement gap between Special Education students and All students has decreased by one (1) percentage point from $34 \%$ to $33 \%$, in terms of the percentage of students meeting or exceeding the standard. This trend can be categorized as Very Positive Narrowing, wherein gains were made by both groups, but the gains made by Special Education students exceeded those made by the All student group.
- A similar comparison can be made between the mean scale scores of the following groups:
- Hispanic: White Students - The achievement gap between Hispanic and White students has decreased by two (2) scale score points, from a difference of eleven (11) in 2008 to nine (9) in 2014.
