Transportation, Distribution, and Logistics Powersports and Small-Engine Systems Performance Theory Course Number: 47.59200

Course Description:

Powersports and Small-Engine Systems Performance Theory is the third course in the Powersports and Small-Engine Maintenance and Repair pathway. Students will master systems-level approaches to enhancing the performance of two- and four-stroke engines. Special emphasis will be on engine overhaul processes and individual modifications based on specified operational needs. Extensive classroom, lab, and field-based activities focus on students demonstrating skills in real-world scenarios under time constraints.

Course Standard 1

TDL-PSESPT-1

The following standard is included in all CTAE courses adopted for the Career Cluster/Pathways. Teachers should incorporate the elements of this standard into lesson plans during the course. The topics listed for each element of the standard may be addressed in differentiated instruction matching the content of each course. These elements may also be addressed with specific lessons from a variety of resources. This content is not to be treated as a unit or separate body of knowledge but rather integrated into class activities as applications of the concept.

Standard: Demonstrate employability skills required by business and industry.

The following elements should be integrated throughout the content of this course.

1.1 Communicate effectively through writing, speaking, listening, reading, and interpersonal abilities.

Person-to-	Telephone and	Cell Phone and	Communicating At	Listening
Person Etiquette	Email Etiquette	Internet	Work	-
•	•	Etiquette		
Interacting with	Telephone	Using Blogs	Improving	Reasons,
Your Boss	Conversations		Communication	Benefits, and

Cross-Cultural Etiquette			

Working in a Cubicle

Course Standard 2

TDL-PSESPT-2

Identify the operational functions of two-stroke and four-stroke engine components.

- 2.1 Identify the function of the intake stroke and related factors that impact engine performance.
- 2.2 Identify the function of the compression stroke and related factors that impact engine performance.
- 2.3 Identify the function of the power stroke and related factors that impact engine performance.
- 2.4 Identify the function of the exhaust stroke and related factors that impact engine performance.
- 2.5 Explain normal combustion and related factors that impact engine performance.
- 2.6 Explain abnormal combustion and related factors that impact engine performance.
- 2.7 Explain the engine fuel system and how the component parts impact engine performance.
- 2.8 Explain octane and how it impacts engine performance.
- 2.9 Explain the concept of volatility and how it impacts engine performance.
- 2.10 Explain the relationship between spark plugs and heat range in relation to vehicle speed and engine performance.
- 2.11 Explain the charging system components and how each interacts to impact engine performance.
- 2.12 Explain the starting system components and how each interacts to impact engine performance.

Course Standard 3

TDL-PSESPT-3

Maintain electronic/electrical systems.

- 3.1 Inspect the charging system.
- 3.2 Troubleshoot the charging system.
- 3.3 Repair the charging system.

Course Standard 4

TDL-PSESPT-4

Perform overhaul engine functions.

- 4.1 Disassemble and reassemble a two-stroke engine.
- 4.2 Disassemble and reassemble a four-stroke engine.
- 4.3 Read and interpret wear limit information from a service manual.
- 4.4 Examine internal engine parts for damage or wear.

Course Standard 5

TDL-PSESPT-5

Examine how SkillsUSA is a co-curricular part of career and technical education through leadership development, school and community service projects, and competitive events.

- 5.1 Explain the purpose, mission, objectives, motto, colors, official dress and other distinguishing characteristics of SkillsUSA.
- 5.2 Explain how participation in SkillsUSA can promote lifelong responsibility for community service, professional growth and development.
- 5.3 Explore the impact and opportunities that SkillsUSA can develop to bring business and industry together with education in a positive working relationship through innovative leadership and career development programs.
- 5.4 Explore the local, state, and national opportunities available to students through participation in SkillsUSA, including but not limited to conferences, competitions, community service, philanthropy, and other SkillsUSA activities.
