

**Transportation, Distribution & Logistics Career Cluster
Automobile Service Technology Internship-2
Course Number: 47.44000**

Course Description:

The Automobile Service Technology Internship is an elective course for all Automobile Service Technology pathways. Students have the opportunity to practice finished work and develop problem solving skills. Students practice adaptability to job equipment and technology and exhibit progressive productivity and acceptable job performance. Mastery of these standards through project-based learning and leadership development activities of the Career and Technical Student Organizations will help prepare students with a competitive edge for the Automobile Service marketplace. The prerequisite for Internship is the successful completion of Automotive Technologies Internship 1 and instructor approval.

Course Standard 1

TDL-ASTI-1

The following standard is included in all CTAE courses adopted for the Career Cluster/Pathways. Teachers should incorporate the elements of this standard into lesson plans during the course. The topics listed for each element of the standard may be addressed in differentiated instruction matching the content of each course. These elements may also be addressed with specific lessons from a variety of resources. This content is not to be treated as a unit or separate body of knowledge but rather integrated into class activities as applications of the concept.

Standard: Demonstrate employability skills required by business and industry.

The following elements should be integrated throughout the content of this course.

1.1 Communicate effectively through writing, speaking, listening, reading, and interpersonal abilities.

Working in a Cubicle			

**Support of CTAE Foundation Course Standards and Georgia Standards of Excellence
L9-10RST 1-10 and L9-10WHST 1-10:**

Georgia Standards of Excellence ELA/Literacy standards have been written specifically for technical subjects and have been adopted as part of the official standards for all CTAE courses.

Course Standard 2

TDL-ASTI-2

Demonstrate relevancy of academic and technical skills needed on the job, integrating work-based and school-based learning.

- 2.1 Compose complete and accurate paragraphs that include information regarding symptoms, diagnosis results, and appropriate details when preparing warranty claims and information for inclusion on work orders.
- 2.2 Identify the specific cause of the described problem by generating conclusions based on known symptoms related to the problem.
- 2.3 Demonstrate an understanding of all federal, state, and local rules and regulations regarding environmental issues related to the work of the automobile technician. Use documentation such as government impact statements, media information, and general knowledge of pollution and waste management to correctly use and dispose of products that result from the performance of a repair task.

Course Standard 3

TDL-ASTI-3

Examine how SkillsUSA is a co-curricular part of career and technical education through leadership development, school and community service projects, and competitive events.

- 3.1 Explain the purpose, mission, objectives, motto, colors, official dress and other distinguishing characteristics of SkillsUSA.
- 3.2 Explain how participation in SkillsUSA can promote lifelong responsibility for community service, professional growth and development.
- 3.3 Explore the impact and opportunities that SkillsUSA can develop to bring business and industry together with education in a positive working relationship through innovative leadership and career development programs.
- 3.4 Explore the local, state, and national opportunities available to students through participation in SkillsUSA, including but not limited to conferences, competitions, community service, philanthropy, and other SkillsUSA activities.

INTERNSHIP TECHNICAL STANDARDS

The following standards are to be experienced in an internship setting and monitored by a mentor as per ASE guidelines. Students shall keep track of tasks completed using a work journal.

TDL-ASTI-TS

Internship Technical Standards

For every task in the internship technical standards, the following safety requirement must be strictly enforced: Comply with personal and environmental safety practices associated with clothing; eye protection; hand tools; power equipment; proper ventilation; and the handling, storage, and disposal of chemicals/materials in accordance with local, state, and federal safety and environmental regulations.

TDL-ASTI-TS1

Assess and formulate general engine service techniques and procedures relating to general engine service, diagnosis, and drivability concerns.

TDL-ASTI-TS2, 3

Compare general automatic and manual transmission/transaxle and differential operations.

TDL-ASTI-TS4

Apply concepts of vehicle general suspension and steering systems service, including wheel alignment diagnosis, adjustment and repair.

TDL-ASTI-TS5

Analyze hydraulic brake system procedures and repairs.

TDL-ASTI-TS6

Analyze general electrical systems, diagnose and repair the charging system, horn and wiper/washer, and automobile accessories.

TDL-ASTI-TS7

Compare procedures related to general service, diagnosis, and repair of the Heating and Air Conditioning system and its related components

TDL-ASTI-TS8

Assess engine performance to identify and repair issues related to the engine, ignition system, and fuel, air induction, and exhaust systems.
