

WHY FAMILY & CONSUMER SCIENCES?

Societal Issues

There is evidence that our society is faced with perennial issues that negatively impact individuals, families and communities.

Improving Quality of Life

FCS Curriculum tackles societal issues (obesity, financial literacy, career preparation, etc.) to improve the quality of life of individuals, families and communities.

Academic and Real Life Connections

FCS curriculum brings to life academic disciplines such as science, technology, engineering and math (STEM) and connects students to real world applications of such content.
