999	State of Georgia	Met	Met	Did Not Meet

#All districts in the state are included in this table.

Determinations for districts belonging to the Title III Consortium will be congruent with the determination of the Consortium for AMAO 1 and AMAO 2.

For AMAO 3, each district is reported independently.

Districts with too few EL students to make a determination on any AMAO have no determination reported.

2011 District Performance on AMAO 1: Progress Toward English Language Proficiency

To be included in this table, a consortium district must have at least 1 ELL student with an ACCESS test record.

* All districts in the Consortium met the AMAO 1 target because the consortium met the target. The other data displayed in this table can be used for informational purposes.

For privacy and reliability reasons, performance is only reported for groups more than 10 students

To be included in this table, a district must have at least 1 EL student with an ACCESS test record.

* All districts in the Consortium met the AMAO 2 target because the consortium met the target. The other data displayed in this table can be used for informational purposes.

For privacy and reliability reasons, performance is only reported for groups with more than 10 students
