Pathway Options

Auto Detailing

Program Description:
The Auto Detailing Program is a 16 week program that prepares clients to pursue careers in auto detailing. Additionally, the program includes instruction on self-employment opportunities as an auto detailer. The program includes classroom activities for certifications, extensive hands-on training, and virtual training in auto painting.

Training and Experience:
Enrolled clients will participate in hands-on training to learn best practices for auto detailing and safety requirements. They will also learn how to physically inspect a car for damage, check fluids and oil, and determine tread depth on tires.

Certifications:
Enrolled clients can earn industry recognized certifications through the International Detail Association.

Career Outcomes:
The Auto Detailing Program prepares clients for self-employment as an auto detailer or a job with an established auto detailing company. A graduate of the program may also pursue a career at a body shop, car dealership, car/equipment rental business, or car wash.

Program Criteria:
Clients participating in the Auto Detailing Program must have:

- A 3rd grade reading level or above; and,
- the ability to physically clean automobiles.

Construction Jumpstart

Program Description:
Construction Jumpstart is a 16 week program to prepare clients for a variety of careers in the construction industry. This fast-paced program will include safety, tool use, construction projects, painting, framing, and dry wall experience.

Training and Experience:
Clients will have both classroom and hands-on construction building experiences. Classroom instruction will include opportunities for earning several certifications.

Certifications:
Clients may earn certifications in OSHA-10; SimBuild; NCCER; and CPR/First Aid.

Careers Outcomes:
Clients completing Construction Jumpstart will be prepared for a variety of careers in this field that includes general laborer; cleaning crew; construction flagger; framer; painter; and carpentry helper.

Program Criteria:
Clients participating in the Construction Ready Program must have:

- A 4th grade reading level or above.
- The ability to lift 50 pounds

Forklift and Warehouse

Program Description:
The Logistics-Forklift and Warehouse Program is a 16-week program that prepares clients for skills needed in the supply chain industry as well as learning to safely operate a forklift and other warehousing equipment.

Training and Experience:
Clients will have experiences in the RWS Warehouse and in the Griffin BEP Warehouse where a variety of equipment and methods of warehousing and material handling will be learned. There will also be classroom instruction that includes simulator training and opportunities for earning certifications.

Certifications:
Enrolled clients may earn certifications in OSHA-10; MSSC (Manufacturing Skills Standards Council); and Forklift Operation.

Career Outcomes:
Clients to be trained for careers in this field that include material handler; forklift operator; stock clerk; order picker; shipping and receiving clerk; warehouse laborer; loader/unloader; and package handler. This is a growing industry in the state of Georgia with many job opportunities.

Program Criteria:
Clients participating in the Logistics-Forklift, and Warehouse Program must have:

- A 4th grade Reading Level
- The ability to lift 30-50 pounds

Certified Nursing Assistant

Program Description:
The C.N.A.-Home Health Aid Program is a 16 week classroom and internship experience that will prepare you to be successful for the Certified Nursing Assistant state licensure. There are 14 weeks of classroom instruction and a clinical experience, and a two week test-preparation and testing period.

Training and Experience:
Clients will have experiences in the classroom and C.N.A. Lab along with an internship experience at a local nursing home. Students are required to have a TB test and other required vaccinations.

Certifications:
Certifications may be earned in CPR/First Aid; C.N.A. Licensure; and Home Health Care.

Career Outcomes:
The Certified Nursing Assistant Program prepares students to test for their state C.N.A. licensure. Students attaining licensure can work in nursing homes, rehabilitation centers, hospitals, clinics, and other places that provide medical services. Some careers in the Home Health field include private home health care or working for a Home Health provider.

Program Criteria:
Clients participating in the C.N.A./Home Health Aid Program must have:

- A 4th grade reading level or above
- The ability to lift 40- 50 pounds.

Hospitality

Program Description:
The Hospitality Program is a new and exciting program that offers stackable certifications in the hospitality industry. The program is 16 weeks in length and the course curriculum is tailored to each specific job certification.

Training and Experience:
Enrolled clients will be taught using a wide variety of modalities through in-person discussion and instruction, on-line instruction, a Learning Lab set up like each certification area, and real-life experiences both on our campus and in our local community. Clients will be fully prepared for a job in this industry.

Certifications:
Certifications earned through AHLEI (American Hotel and Lodging Educational Institute) and include: Guest Room Attendant; Restaurant Server; Kitchen Cook; Breakfast Attendant; Front Desk Receptionist; Maintenance Employee; Guest Service Tourism Certification will also be offered.

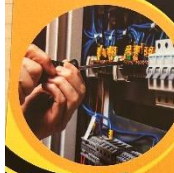

Career Outcomes:
The Hospitality Program prepares clients for a variety of careers in the Hospitality industry and there are opportunities across our state. Some careers are Hotel Desk Clerk or Receptionist; Hotel Room Attendant / Housekeeper; Restaurant Server; Maintenance Worker for hotels, apartments, and condominiums; Breakfast Attendant; Cafeteria Worker; Hospital Food Service; and a Cook or Food Service Worker.

Program Criteria:
Clients participating in the Hospitality Program must have:

- A 4th grade reading level or above; and
- The ability to perform tasks associated with each certification training

Low Voltage Wiring

Program Description:
Low Voltage Wiring is a 16 week program that is a component of construction but moves into the installation of cable, internet, audio-visual systems, outdoor lighting, and security systems.

Training and Experience:
Clients will have both classroom and hands-on building and wiring experiences. Classroom instruction will include opportunities for earning several industry-recognized certifications. Students learn some aspects of high voltage electricity and construction as well.

Certifications:
Clients may earn certifications in OSHA-10; RESI (Residential Electronics Systems Integrator); CEDIA (Custom Electronics Design and Installation Association); and CPR/First Aid.

Career Outcomes:
Clients completing the Low Voltage wiring program are prepared for a variety of careers in this field that includes employment with cable and internet providers; phone companies; outdoor lighting contractors; and security system providers. There are also career opportunities to install audio-visual equipment and sound systems.

Program Criteria:
Clients participating in the Low Voltage Wiring Program must have:

- An 8th grade reading level or above; and,
- The ability to lift at least 50 pounds.
