Funding Categories

1000 Series- Instruction includes activities dealing directly with the interaction of teachers and students.

2100 Series - Pupil Services deal directly with activities designed to assess and improve the well-being of students and to supplement the teaching process.

2210 Series - Improvement of Instructional Services include activities which are designed primarily for assisting instructional staff in planning, developing, and evaluating the process of providing challenging learning experiences for students.

2213: Activities associated with the professional development and training of instructional personnel. These include such activities as in-service training (including mentor teachers), workshops, conferences, demonstrations, courses for college credit (tuition reimbursement), and other activities related to the ongoing growth and development of instructional personnel. Training that supports the use of technology for instruction should be included in this code. The incremental costs associated with providing substitute teachers in the classroom (while regular teachers attend training) should be captured in this function code. All costs should be charged to this code regardless of whether training services are provided internally or purchased from external vendors. It should be noted that the salary of a teacher who is attending training would still be reported in function 1000.

Allowable Activities: Professional Development and education and behavioral evaluations, services and supports. The activities must address factors and policy, practice, or procedures contributing to significant disproportionality.
