4 Ways to Get a Handle on Maintenance of Effort

SELSA
July 19, 2023

Georgia Department of Education
Special Education Services and Supports Division
Nicole Croom, Program Specialist
Agenda

• Federal requirement to supplement, not supplant
• Maintenance of Effort (MOE) requirement
• Methods to Meet MOE
• MOE Eligibility Worksheet
• Ways to Reduce MOE
• Resources
#1 Be Familiar with the Federal Regulations
Federal Requirement to Supplement, Not Supplant

34 CFR § 300.202 Use of amounts explains the appropriate use of IDEA, Part B funds for students with disabilities.

(a) General. Amounts provided to the LEA under Part B of the Act—

(1) Must be expended in accordance with the applicable provisions of this part;
(2) Must be used only to pay the excess costs of providing special education and related services to children with disabilities, consistent with paragraph (b) of this section; and

(3) Must be used to supplement State, local, and other Federal funds and not to supplant those funds.
Federal Requirement to Supplement, not Supplant Supplanting Tests

Two methods to determine whether a local educational agency (LEA) is meeting the federal requirement:
#2 Be Aware of Last Met Effort
What is Maintenance of Effort (MOE)?

• Federal requirement that an LEA must budget and spend at least the same amount of local or state and local funds as it did the previous year on educating students with disabilities.

• LEA effort = LEA state and/or local expenditures
## Purpose of MOE

The LEA MOE requirement helps to ensure that LEAS:

1. Expend at least a certain level of non-federal funds for the education of students with disabilities

2. Continue to expend the funds necessary to provide a free appropriate public education (FAPE)

3. Have sufficient funds to serve students with disabilities

4. Use IDEA Part B, funds to **supplement** state, local, and other federal funds and not to **supplant** those funds
MOE Standards
Required MOE Levels

Eligibility Standard
(MOE level for budgeting)
An LEA must **budget** at least the same amount or more as expended in the comparison year.

Compliance Standard
(MOE level for spending)
An LEA must **expend** at least the same amount or more as expended in the comparison year.

**NOTE:**
The **comparison year** refers to the fiscal year that an LEA uses to determine the amount of funds it must budget or expend to meet the MOE standards (the last year the LEA met MOE).
Methods to Meet MOE

An LEA must maintain state and local expenditures for students with disabilities in one of four methods:

1. local funds only;
2. the combination of state and local funds;
3. local funds only on a per pupil basis; or
4. the combination of state and local funds on a per pupil basis.
Methods to Meet MOE

**POLL #1:** In how many methods must an LEA maintain effort for students with disabilities?

a. 2
b. 4

**Correct Answer:**

c. 1
Meeting the Eligibility Standard

PLANNING
LEA must intentionally BUDGET appropriate state and local expenditures.

IMPLEMENTATION
LEA must follow through with planned expenditure amounts to maintain effort.
Meeting the Eligibility Standard

The Eligibility standard is assessed **annually** at the time of budget submission.

The MOE Eligibility Worksheet compares three years of overall expenditures and per pupil expenditures.

The Eligibility standard is assessed by reviewing the MOE Eligibility Worksheet.

LEA must upload a **completed** MOE Eligibility Worksheet as an attachment in the Consolidated Application (Con App).

**Directions:** Only enter data into WHITE cells. Use MOE portal information to find amounts for the comparison year. In the portal it is referred to as “Projected Effort”. Use October FTE 1 SWD CHILD FIND Counts to complete enrollment information. For FY24, you may use projection or 23-1 FTE count. Complete the calculation worksheet tab to determine FY23 and FY24 amounts. Per Pupil Amounts are automatically entered when enrollment information is entered. Finally, to calculate Local MOE, please see instructions in Calculation Worksheet Tab. You must meet in at least one method category each year to be compliant and eligible. If you do not meet, you will need to request exceptions and adjustments.

Helpful Tips

• Use only the program codes included in the Calculations Worksheet tab

• Note that program code 9990 is not included in the MOE calculation

• Complete both the prior year and current year columns

• Be sure to get enrollment count information

• Make sure all information transfers to Final Projections tab (eligibility worksheet)

Meeting the Eligibility Standard

Important Reminders

For IDEA budget approval, the **MOE Eligibility Worksheet** must be:

- Uploaded to the Con App
  - IDEA 611 grant’s Uploaded Files tab OR general Attachments tab
- Completed (both worksheet tabs)
  - Correct comparison year amounts
  - Students with disabilities enrollment information

AND

The MOE Eligibility Worksheet must show that the LEA projects meeting in at least one method each year.

Meeting the Compliance Standard

Financial Review runs the Compliance Test after the DE046 submission deadline.

LEAs have four options to demonstrate meeting the MOE requirement:

<table>
<thead>
<tr>
<th>Local funds only</th>
<th>State and Local funds</th>
<th>Local per pupil</th>
<th>State and Local per pupil</th>
</tr>
</thead>
</table>

Compliance (Expenditures) Standard
Two Scenarios

POLL #2: In which scenario did the LEA meet the compliance standard? How come the LEA did not meet the compliance standard in the other scenario?

A. The LEA expended $900,000 and met LEA MOE in FY19. In FY20, it expended $950,000.

B. The LEA expended $900,000 and met LEA MOE in FY19. In FY20, it expended $850,000.
Compliance (Expenditures) Standard

Two Scenarios

POLL #2: In which scenario did the LEA meet the compliance standard? How come the LEA did not meet the compliance standard in the other scenario?

The LEA did not maintain effort and expended $50,000 less than it did in FY19.

A. The LEA expended $900,000 and met LEA MOE in FY19. In FY20, it expended $950,000.

B. The LEA expended $900,000 and met LEA MOE in FY19. In FY20, it expended $850,000.
Subsequent Years Rule

34 CFR § 203(c)(1) Subsequent Years

“...the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required in the absence of that failure, not the LEA’s reduced level of expenditures.”
WHAT DOES THAT MEAN?
In what year did you last meet in each method?

MOE: Key Takeaways

• Required level of effort (for either standard) based on the last fiscal year in which LEA MOE compliance was met.
• Must use the same calculation method when comparing the current year to the comparison year.
• If LEA meets LEA MOE by any of the four methods, LEA MOE is met.
I Didn’t Meet. Now WHAT?

The LEA generally has two options, but only one viable one:

**Option 1** - Reduce Effort

OR

**Option 2** - Repay Funds
#3 Be Ready to Take Exceptions or Adjustments
Basic Understanding of Exceptions

An LEA may:

• Take multiple exceptions in one year if each exception applies in that year

• Apply these exceptions to reduce its required MOE level and meet the **eligibility (budget) standard** using any of the four methods

• Apply these exceptions to reduce its required MOE level and meet the **compliance (expenditures) standard** using any of the four methods
Allowable Exceptions
34 CFR § 300.204

a. The voluntary departure, by retirement or otherwise, or departure for just cause, of special education personnel or related services personnel;

b. A decrease in the enrollment of children with disabilities;

c. The termination of the LEA’s obligation to provide a program of special education to a particular child with a disability that is an exceptionally costly program because the child has left the LEA, reached the maximum age, or no longer needs the program;
Allowable Exceptions
34 CFR § 300.204

d. The termination of costly expenditures for long-term purchases (Must have prior approval); and/or,
e. The assumption of the cost by the high cost fund operated by the State.
Exception Example

• A veteran special education teacher paid with state and local funds retired at the end of last school year and is replaced by a less-experienced special education teacher for the current school year.

• The LEA expended $150,000 in salary and benefits on the veteran teacher last school year and will expend $90,000 on the new hire in the current school year.

• The LEA may reduce its required level of effort by $60,000 ($150,000 – $90,000) in the current school year.

Timeline for Reducing MOE

- LEAs may reduce **MOE eligibility** throughout the year.
- LEAs must reduce **MOE compliance** by **March 14 reconciliation deadline** for current year reductions.
Documentation Requirements

Exceptions

- **Exceptions to MOE Compliance Requirement Form** must be submitted and approved.

- Supporting evidence must show true expenditures and must be approved.

- All documentation must be uploaded to the Con App.
MOE Adjustment
34 CFR § 300.205

• If the IDEA 611 allocation increases, the LEA, if it meets certain conditions, may reduce its MOE level up to 50 percent of the increase in the allocation.

• Conditions
  • Providing FAPE
  • Has not been identified with a Significant Disproportionality
Documentation Requirements

MOE Adjustment

- **MOE Adjustment Form** must be submitted and approved.
- LEA is responsible for maintaining **all** documentation.
- All documentation must be uploaded to the Con App.

### Use of IDEA Funds to Adjust Local Fiscal Effort in Certain Years

(34 CFR § 300.205 Maintenance of Effort (MOE))

IDEA 2004 allows an LEA to treat up to 50% of the increase only in IDEA funds from the previous year to reduce local MOE expenditures. If an LEA decides to use these funds, it must use the form below to calculate the maximum available to be used.

**NOTE:** The LEA must use an amount of local funds equal to the reduction in expenditures to carry out activities that could be supported with funds under ESEA regardless of whether the LEA is using funds under ESEA for those activities. However, if the LEA is unable to establish and maintain programs of TAPE or the state performance targets are at issue than GaDOE shall prohibit this reduction. The amount of funds used in Early Intervening Services shall count toward the maximum amount of expenditures that the LEA may reduce their local fiscal effort (see Maintenance of Effort and Early Intervening Services in Appendix D of the federal regulations). *

</tbody>
</table>

*If disproportionate, LEA is required to use 15% maximum for CCEIS of IDEA 611 and Preschool 619 funds.

**Narrative on the use of these funds in an ESEA related activity is required.**

Regular education operation of schools in ESEA approved activities for the same amount. Must track these expenditures to ensure full 50% reduction of local MOE.
#4 Be on Top of Expenditures
There Should Be NO Surprises!
Best Practices

- Work **closely** with finance personnel
- Establish adequate procedures to review the budget and consistently review special education expenditures
- Accurately project expenditures based on activities/changes
- Identify and take early exceptions
