

**Advancing School Leadership for Continuous Improvement**

**Disaggregating Georgia Milestones Data for  
Targeted Professional Learning,  
Planning and Instruction**

**Winter Instructional Leadership Conference**

**February 25, 2020**

**Wiley H. Dailey**

**Deputy Superintendent for Data Analysis and School Improvement**

**Dalton Public Schools**

# Session Norms

- Place electronics on silence/vibrate.
- Remain engaged in learning.
- Respectfully share opinions.
- Ask questions for clarification to avoid making assumptions.

# Purpose/Goals

- Increase a Professional Learning Community's (PLC's) knowledge of the Georgia Milestones Assessment System (GMAS).
- Examine trend and performance data using 2 years of Georgia Milestones data.
- Celebrate accomplishments and areas of strength for a PLC.
- Identify 1 – 2 areas per grade level (content area) for targeted professional learning, planning and delivery of quality instruction.

# Purpose/Goals

- Aligns to goals/objectives of the School Improvement Plan.
- Aligns to the Performance Measures and Performance Objectives of the Strategic Plan.

# Testimonials

“The “data digs” have changed our lives! They meet regularly with our PLCs to review end of course data and real-time student data which empowers our teachers to provide more intentional teaching and student learning opportunities. Analyzing and understanding student data has impacted the planning and instructional delivery for our teachers, which has had a tremendous impact on student achievement.”

**Pam Massingale, Assistant Principal**

**Morris Innovative High School**

**Comprehensive Support and Improvement (CSI) School**

# Testimonials

“The data digs with my department (English) at Morris Innovative High School have been particularly eye-opening and extremely impactful for me. I saw a glimmer of hope for how I could better help these children. Instead of approaching the data digs from the perspective of what everyone is not doing well, we approached them by first looking at what students were doing right and how they were making some gains.”

“Mr. Dailey led us through breaking down all of the scores and reporting while explaining which areas we could approach as our initial plan, including things as simple as talking to students about attempting every single question on the test and not leaving any blank answers. We have focused on just a few things with higher impact for students first. Doing this helped me to understand that even the smallest shifts in student thinking and approach to their learning and curriculum could help them (and our school) experience significant measurable successes over time....”

**Diana Gibson, Literacy Coach at Morris Innovative High School  
Comprehensive Support and Improvement (CSI) School**

# Clarification

- The purpose of this data disaggregation is not to “teach to the test” but to be intentional with our instruction.
- Georgia Milestones results are only one piece of the puzzle.

# Details

- These data digs are completed with PLCs in grades 3 through high school.
- Teachers, in each PLC, identify areas of strength and areas of focus based on Georgia Milestones' trend and performance (when applicable) data.
- Grade levels/content areas share their charted results with entire faculties.

# Details, continued

- Based on areas of focus...
- Special areas, CTAE, ESS, EIP, ESOL/ELL, Gifted/Challenge, counselors, all staff share how they will target areas of focus.
- School level coaches, PLCs, grade/department chairs work in concert with district content specialists/coaches to provide PL to address areas of focus.

# GMAS Achievement Levels

- **Beginning Learners do not yet demonstrate proficiency** in the knowledge and skills necessary at this grade level/course of learning, as specified in Georgia's content standards. The students ***need substantial academic support*** to be prepared for the next grade level or course and to be on track for college and career readiness.
- **Developing Learners demonstrate partial proficiency** in the knowledge and skills necessary at this grade level/course of learning, as specified in Georgia's content standards. The students ***need additional academic support*** to ensure success in the next grade level or course and to be on track for college and career readiness.
- **Proficient Learners demonstrate proficiency** in the knowledge and skills necessary at this grade level/course of learning, as specified in Georgia's content standards. The students ***are prepared*** for the next grade level or course and are on track for college and career readiness.
- **Distinguished Learners demonstrate advanced proficiency** in the knowledge and skills necessary at this grade level/course of learning, as specified in Georgia's content standards. The students ***are well prepared*** for the next grade level or course and are well prepared for college and career readiness.

# Our time together.....

- For the purpose of this mini data disaggregation, we will focus on a hypothetical 5<sup>th</sup> grade mathematics PLC.
- This same data dig has been completed in grades 3 through high school.

**Georgia Milestones  
Content Weights**

The chart below shows the approximate weights for each reporting category on the Georgia Milestones Assessment in grade 5. Each Georgia Milestones Assessment is aligned to the state-adopted content standards.

<b>GRADE 5</b>		
Content Area	Reporting Category	Approximate Percent of Test
English Language Arts	Reading and Vocabulary	53%
	Writing and Language	47%
Mathematics 	Operations and Algebraic Thinking	10%
	Number and Operations in Base 10	25%
	Number and Operations - Fractions	30%
	Measurement and Data	20%
	Geometry	15%
Science	Earth Science	23%
	Physical Science	35%
	Life Science	42%
Social Studies	History	58%
	Geography	12%
	Government/Civics	15%
	Economics	15%

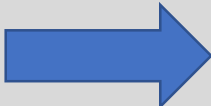

# 5<sup>th</sup> Grade Content Weights

## Georgia Milestones Content Weights

The chart below shows the approximate weights for each reporting category on the Georgia Milestones Assessment in grade 4. Each Georgia Milestones Assessment is aligned to the state-adopted content standards.

GRADE 4		
Content Area	Reporting Category	Approximate Percent of Test
English Language Arts	Reading and Vocabulary	53%
	Writing and Language	47%
Mathematics 	Operations and Algebraic Thinking	20%
	Number and Operations in Base 10	20%
	Number and Operations - Fractions	30%
	Measurement and Data	20%
	Geometry	10%

# Domain Results for 2018

- Domain with the highest performance = Measurement and Data.
- 20% of the test (2<sup>nd</sup> highest – Operations and Algebraic Thinking)
- Lowest performing domain = Numbers and Operations – Fractions.
- 30% of the test
- Second lowest performing domain = Numbers and Operations in Base 10.
- 25% of the test

# Performance Data

- We have examined 2 years of trend data.
- Apples to oranges comparison.
- Same Georgia Standards of Excellence (GSE) but different students.
  
- Examine cohort data.
- 2018 - 4<sup>th</sup> Grade Math
- 2019 - 5<sup>th</sup> Grade Math

**\*Domain Mastery:**  
 1 = Remediate Learning  
 2 = Monitor Learning  
 3 = Accelerate Learning

# 5<sup>th</sup> Grade Domain Results from 18 to 19

- Decrease in all areas.
- Domain with the highest performance = Operations and Algebraic Thinking (Most Accelerate Learning).
  - 10% of the test
- Domain with the lowest performance = Numbers and Operations – Fractions.
  - 30% of the test

# Implications for 5<sup>th</sup> Grade

- Based on performance and trend data – Professional Learning (PL), planning, coaching and administrator observations should focus on Numbers and Operations in Base 10 and Numbers and Operations - Fractions.

# Next Steps

- Target areas have been identified by each PLC.
- Data is shared with staff at each school.
- All staff share how they will address targeted area(s).
- District and school coaches address targeted area(s) via PL, planning and coaching.

# Next Steps, continued

- Administrators complete 10 walk-through observations daily.
- Monthly meetings scheduled to discuss progress with targeted areas.
- Examine formative data and other district data.
- Identify at-risk students and discuss instructional strategies.

# Additional Data

- Numbers and operations

	MGSE5.G.4		

The Standards for Mathematical Practice (1-8) will be embedded within items aligned to the mathematical content standards.

Depth of Knowledge (DOK) is measured on a scale of 1 to 4 and refers to the level of cognitive demand (different kinds of thinking) required to complete an assessment item. The following table shows the expectations of the four DOK levels on the End-of-Grade Mathematics exam.

Depth of Knowledge	Approximate % of Test	Approximate # of Points
Level 1	30% to 40%	17 to 23
Level 2	40% to 50%	23 to 29
Level 3	15% to 25%	9 to 15
Level 4	N/A	N/A
