# GEORGIA'S SYSTEMS OF CONTINUOUS IMPROVEMENT

The Georgia Department of Education's strategic plan emphasizes transforming the agency into one that provides meaningful support to schools and districts. The agency has developed a common, continuous improvement framework to ensure that these efforts are aligned across all agency divisions, departments, and programs. Georgia's Systems of Continuous Improvement focuses on the systems and structures (the "what") that must be in place for sustained improvement in student outcomes. It also utilizes a problem-solving model (the "how") to provide a clear process for identifying improvement needs, planning for improvement, and implementing, monitoring, and evaluating the improvement efforts.

## ***Systems to Improve (What to Improve)***

**Coherent Instructional System:** The major system of the complex district organization that articulates and guides the “what” and “how” of instruction. This comprehensive system includes the processes related to:

- *Planning for quality instruction* - The structure of the instructional system in which the district defines what the students should “know” and “do”, and determine how their students will show they “know” the content and can “do” a skill or performance task
- *Delivering quality instruction* - The structure of the instructional system that guides teachers in how they introduce content, practice its use along with the students, and then allow students to use the content on their own while providing students regular standards-based feedback to gain mastery of the content
- *Monitoring student progress* - The structure of the instructional system that methodically discovers if the students are getting the content, and what to do about it when they are getting it or are not getting it
- *Refining the instructional system* - The structure of the instructional system that examines how to improve the planning for quality instruction, delivering quality instruction, and monitoring student progress

**Effective Leadership:** A major system of the complex district organization that sets the direction for the district, ensures that the district staff and the school leaders are capable of meeting that direction, and makes sure the organization functions according to its mission. This system includes the processes related to:

- *Creating and maintaining a climate and culture conducive to learning* - the structure of the leadership system that ensures that the school allows both adults and children to put learning at the center of their daily activities
- *Cultivating and distributing leadership* - the structure of the leadership system that develops others to accomplish the group's purpose and encourages the development of leadership across the organization
- *Ensuring high quality instruction in all classrooms* - the structure of the leadership system that reduces the variability in the quality of instruction across all schools and all classrooms
- *Managing the district and its resources* - the structure of the leadership system that ensures leaders effectively use all the resources at hand so that the district functions according to its mission
- *Driving improvement efforts* - the structure of the leadership systems that methodically, intentionally, and effectively improves the district's major systems, structures, and processes

**Professional Capacity:** A major system of the complex district organization that develops a quality staff to reduce the variance of quality in instruction throughout the district. This system includes the processes related to:

- *Attracting staff* - the structure of the professional capacity system that is intentional in locating the teachers and leaders that are the best fit for the district and its schools to achieve its mission
- *Developing staff* - the structure of the professional capacity system that ensures the increasing quality of the district and school staff's knowledge and skills
- *Retaining staff* - the structure of the professional capacity system that ensures the quality staff is working in the context/ position that is most beneficial to student achievement
- *Ensuring staff collaboration* - the structure of the professional capacity system that reinforces the effective practice of constant collaboration to improve instructional quality in all schools and in all classrooms

**Family and Community Engagement:** A major system of the complex district organization that develops quality links between district professionals and the parents and community the district and its schools are intended to serve. This system includes the processes related to:

- *Welcoming all families and the community* - The structure of the family and community engagement system that ensures families and the community are active participants in the life of the schools within the district, and feel welcomed, valued, and connected to each other, to school staff, and where applicable district staff, and to what students are learning and doing in the schools within the district
- *Communicating effectively with all families and the community* - The structure of the family and community engagement system that ensures families/the community and district and school staff engage in regular, two-way, meaningful communication about student learning
- *Supporting student success* - the structure of the family and community engagement system that ensures families, communities, school staff, and as appropriate district staff, continuously collaborate to support students' learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively
- *Empowering families* - the structure of the family and community engagement system that ensures families are empowered to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success
- *Sharing leadership with families and the community* - the structure of the family and community engagement system that ensures families/the community and district and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs
- *Collaborating with the community* - the structure of the family and community engagement system that ensures families and district and school staff collaborate with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation

**Supportive Learning Environment:** A major system of the complex district organization that ensures students' school participation and willingness to expend major effort on classroom learning. This system includes the processes related to:

- *Maintaining order and safety* - the structure of the supportive learning environment system that ensures that the basic needs of orderliness and safety are met
- *Developing and monitoring a system of supports* - the structure of the supportive learning environment system that provides comprehensive services to students to meet their unique, whole-child needs
- *Ensuring a student learning community* - the structure of the supportive learning environment system that ensures compliance with positive and healthy behavioral and academic norms

### ***Process to Improve (How to Improve)***

**Step 1: Identify Needs:** Consult many sources to determine what in the district needs improvement.

- Plan and prepare for the process
- Collect and analyze data
- Identify needs and conduct a root cause analysis

**Step 2: Select Interventions:** Research many sources to determine the solutions that have a good chance of meeting the identified district needs.

- Consider all the evidence for needed improvements
- Research possible interventions
- Determine if staff has the capacity to implement possible interventions

**Step 3: Plan Implementation:** Develop a team and plan to implement the solutions that are most promising and can be carried out at the school.

- Identify roles and responsibilities of those implementing the intervention
- Develop a team that will deeply understand the intervention and of best ways to implement it
- Develop the implementation timeline
- Identify resources and supports needed for the implementation of the intervention
- Develop a set of information to be reviewed to track the implementation

**Step 4: Implement Plan:** Carry out the plan to implement the promising solutions, making real-time adjustments where/when needed.

- Collect information to monitor the quality of supports being provided for the intervention
- Consider what additional information is needed to determine if intervention is working
- Assess the degree to which the implementation plan is being followed
- Identify ways to break down any barriers
- Build capacity of others to facilitate the improvement process now and in the future

**Step 5: Examine Progress:** Determine whether the implementation of the promising solutions is meeting the originally identified needs of the school.

- Determine if the staff can formally study the effects of the intervention to share with others in the field
- Monitor implementation and progress against defined goals
- Define reasonable expectations for success
- Identify and track progress and performance
- Develop a plan for how knowledge about the intervention will be shared with others
- Use the evidence to determine whether the intervention should continue as is, be modified, or be discontinued

### 3.2 PROGRAM STRENGTHS and CHALLENGES

Using the summaries in 3.1 and other local data, describe the strengths and challenges or answer the guiding questions for each program. Include strengths and challenges related to: a) general program implementation, and b) students and adults involved in or affected by the program. Focus on strengths and challenges that will assist in the identification of needs during 3.3. Watch the [Identifying Need webinar](#) for additional information and guidance.

3.2.5 TITLE I, PART C - EDUCATION of MIGRATORY CHILDREN

Did the LEA have migrant students enrolled or migrant participants (preschool, out-of-school youth, drop-outs) residing in the district in 2016-17?	
-----------------------------------------------------------------------------------------------------------------------------------------------------	--

How is the LEA assessing and serving its most mobile migratory children and youth who lack consistent class or state assessment scores?	
-----------------------------------------------------------------------------------------------------------------------------------------	--

How is the LEA designing services for its migratory children and youth who are only in the district for a short period of time (and those who may never enroll in the district)?

3.2.10 LEA EQUITY ACTION PLAN

Identify and analyze the two greatest equity gaps in the LEA.	
---------------------------------------------------------------	--

If the greatest gaps are not selected as areas for focus in the LEA Equity Action Plan, provide a rationale for this decision.	
--------------------------------------------------------------------------------------------------------------------------------	--

If not addressed in the first question, identify and analyze the equity gaps that are chosen as areas for focus in the LEA Equity Action Plan.	
------------------------------------------------------------------------------------------------------------------------------------------------	--

3.2.11 ADDITIONAL QUESTIONS FOR CHARTER SYSTEMS

<p>What are the main successes of your implementation of Local School Governance?</p>	
<p>What barriers had to be overcome to implement Local School Governance?</p>	
<p>What remains to be done to fully implement Local School Governance with fidelity?</p>	
<p><b>Essential Features and Innovations:</b> Describe the LEA's progress on the essential features and innovations to improve academic outcomes in the charter system's contract. Questions to consider include:</p> <ul style="list-style-type: none"> <li>• What is the status of the implementation of each essential or innovative feature included in the contract?</li> <li>• For those essential or innovative features that are not on schedule, what are next steps?</li> <li>• Are there any essential or innovative features that should be deleted or added to the LEA's new charter system contract?</li> </ul>	

## 3.3 IDENTIFICATION and PRIORITIZATION of OVERARCHING NEEDS

Use the results of 3.1 and 3.2 to identify the overarching needs of the LEA. Determine the priority order of the identified needs based on data, team member and stakeholder knowledge, and answers to questions in the table below. Be sure to address the major program challenges identified in 3.2. Watch the [Identifying Need webinar](#) for additional information and guidance.

<i>Overarching Need</i>	<i>How severe is the need?</i>	<i>Is the need trending better or worse over time?</i>	<i>Can Root Causes Be Identified?</i>	<i>Additional Considerations</i>	<i>Priority Order</i>

### 3.4 ROOT CAUSE ANALYSIS

Select the top 2-4 overarching needs from 3.3. Conduct a separate root cause analysis (RCA) for each need. Any RCA tools and resources can be used, but suggestions are available as part of the [Identifying Need webinar](#). After describing the RCA process, complete a table for each selected overarching need. Use the letter codes below to identify which programs relate to each root cause (ex: “ABCF”).

- A. IDEA - Special Education
- B. School and District Effectiveness
- C. Title I, Part A - Improving the Academic Achievement of the Disadvantaged
- D. Title I, Part A - Foster Care Program
- E. Title I, Part A - Parent Engagement Program
