Overview

PCGenesis W-2 processing prints employees' W-2 statements, and creates the corresponding Social Security Administration (SSA) and Georgia Department of Revenue (DOR) files for calendar year-end processing.

Technical Requirements: To ensure the W-2s complete processing successfully, PCGenesis requires 1 GB minimum of free space on the C:\ drive of the workstation and on the server. Although this is a PCGenesis system requirement for all processes, this free space must be available for processing W-2s. Contact the local Technology Specialist for assistance as needed.

PCGenesis W-2 Processing for Georgia Exempt Wages: The Georgia Department of Revenue has issued *Policy Statement IT-2010-1-5, Withholding and Taxation of Certain Nonresident Military Spouses*. The purpose of this policy statement is to explain how the GA Department of Revenue will comply with and administer certain provisions of the federal Military Spouses Residency Relief Act.

Under the Act, a spouse of a servicemember may be exempt from Georgia income tax on income from services performed in Georgia if:

1. The servicemember is present in GA in compliance with military orders;
2. The spouse is in GA solely to be with the servicemember;
3. The spouse maintains domicile in another state; and
4. The domicile of the spouse is the same as the domicile of the servicemember.

Affected spouses may immediately suspend withholding on their wages by amending Georgia Form G-4 with their employer(s). The applicable box within Section 8 of Form G-4 should be checked and returned to the employer(s). The employer must submit the Form G-4 to the GA Department of Revenue as provided on the Form G-4. On the W-2 for 2010 and any year thereafter, the employer should not report any of the wages as Georgia wages on the W-2.

A Georgia marital status of '8' will cause all wages to be exempt from reporting for Georgia state wages, and will cause zero Georgia tax to be withheld from the employee's paycheck. The *Department of Labor Quarterly Payroll Report and Wages Data File*, and the W-2 forms will both treat any wages on the Earnings History records with a Georgia marital status of '8' as Georgia exempt wages, and these wages will not be included in these tax reports.

Employee Retirement System (ERS) Post-Tax Processing: Effective January 1, 2008 PCGenesis payroll calculations process old and new ERS as post-tax instead of as pre-tax. Beginning with the processing of calendar year 2008 W-2s, ERS will no longer be subtracted from wages, tips, and other compensation *(Box 1 on the W-2)*. Note however that when producing W-2s prior to this time, PCGenesis continues to treat the ERS amount as exempt from *Box 1*.

Print Employer Copy of W-2 statements: PCGenesis processes the *Employer Copy* of the W-2 statements via the *Uqueue Print Manager*. The payroll administrator should print the *Employer Copy* of the W-2 statements at least once on plain paper before printing the actual W-2 statements. The payroll administrator can print the *Employer Copy* of the W-2 statements and verify that the payroll data is correct.

PCGenesis W-2 Printing/Electronic Media File Processing: In addition to the W-2 *Employer Copy,* PCGenesis allows W-2 processing and printing for all employees, and for an individual employee. Optional procedures include printing blank W-2 statements, restarting W-2 printing from the last Social Security Number (SSN) printed correctly, and reprinting up to fourteen W-2s at a time by Social Security Number. Where appropriate, the print procedure merges duplicate employee information and generates the *Social Security Duplicate/Address Error Report - Records Merged* for review. Per IRS regulations, paper W-2 forms are due to individuals by February 1st of the reporting year.

When printing the employee W-2 statements, PCGenesis automatically creates the SSA transmission data file. The payroll administrator uses this data file for electronic media submission and for file upload via the Web. Starting with reporting year 2016, the IRS has announced a new due date for filing with SSA. The due date for filing Forms W-2 with the SSA is now January 31, 2024, whether you file using paper forms or electronically. Filers of 250 or more of W-2 forms must file with the Social Security Administration electronically.

It is highly recommended that school district officials go to the IRS website and print and read the general instructions for Forms W-2 and W-3. It is also recommended that school district officials read the *Social Security Administration Publication No. 42-007, Specifications for Filing Forms W-2 Electronically (EFW2)*.

W-2 Error Report: In addition to a sundry list of potential error messages, the *W-2 Error Report* displays a warning message for *Medicare-Only* records containing Old Age, Survivors, and Disability Insurance (OASDI) amounts. PCGenesis users should be aware that the Social Security Administration will reject transmission files containing these warnings. For this reason, the GaDOE strongly encourages users to correct these records when generated.

Social Security Administration (SSA) File Processing Requirements**:** *"The SSA no longer accepts magnetic tapes, cartridges, or 3 1/2" diskettes. All wages must be filed either electronically or on paper."* An SSA-assigned Personal Identification Number (PIN) is required to be able to upload W-2 information to the SSA. Detailed instructions regarding SSA wage reporting and requirements located at: http://www.ssa.gov/employer/.

- AccuWage Requirements**:** The Social Security Administration (SSA) provides *AccuWage* to test wage reports and for data verification. School districts and systems must verify the wage files via *AccuWage* before submitting the file to the SSA for processing. *Procedure F: AccuWage Software Installation and W-2 Electronic Media File Verification* provides the instructions to download and to install the software for wage reporting. The SSA provides additional employer reporting instructions, an installation guide, and online reference material for this procedure at: http://www.ssa.gov/employer/accuwage/index.html.

State of Georgia – Department of Revenue (GA DOR) Reporting Requirements: The State of Georgia requires employers to submit copies of employees' W-2s to the Georgia Department of Revenue using the *Georgia eFile & ePay System*. The electronic media file for the Georgia Department of Revenue is the SSA file, *W2REPORT*, within directory *PAYSSA* on *SECOND*. (The Department of Revenue will use a predefined record within the SSA's file.) Additional information for the *Georgia eFile & ePay System* is located at: https://gtc.dor.ga.gov/_/ .

PCGenesis also creates the G-1003 csv file required for the *Georgia eFile & ePay System*'s electronic file submission. Support has been added to the W-2 process to produce the G-1003 csv file required by the Ga. Department of Revenue. The file created is *1003.csv* within directory *PAYSSA* on *SECOND*. The *1003.csv* file can be uploaded to the Department of Revenue Tax Center website to complete the electronic filing process.

Procedure B: W-2 Statement Balancing

Year-to-date (YTD) earnings history information must be printed and verified against the *Employer Copy* of the W-2s before the *Employee Copy* of the W-2s are printed. *Procedure A: Printing a Year-to-Date (YTD) Summary by Employee Earnings Register* provides the instructions to print the YTD earnings history information.

The final page of the *Earnings Register* prints deduction totals. The following provides additional information regarding these deduction totals:

- The Federal tax total should equal the federal quarterly report totals.
- The Teacher Retirement System (TRS) total should equal the total withheld for the calendar year.
- The Federal and State income taxes, Old Age Survivors Disability Insurance (OASDI) tax, OASDI gross, Medicare Health Insurance (HI) tax, HI gross, imputed income, annuities, dependent child care, fringe benefits, Advanced Earned Income Credit (AEIC), non-taxable benefits (Cafeteria Plan), and Non-qualified Plan 457 totals are the same totals reported on W-2s.

If these totals are incorrect, the error must be determined and corrected, and the appropriate procedure repeated before the *Employee Copy* of the W-2s are printed and the *W2Report* file(s) are submitted for processing. Also ensure that the control totals compared to the *Earnings History Register* results are accurate.

B1. Payroll Tax Calculation of Special Deductions

The following table provides deduction type information that should be included in wage reporting for federal, state, and/or FICA/Medicare:

Tax Type	Federal	State	FICA/Medicare
Annuities (Deduction Codes "01" & "02" and additional deduction codes as defined on the *Annuity Deduction Control Record*.)	N	N	Y
TRS Withheld	N	N	Y
ERS (Old and New) - *Effective 01/01/2008*	Y	Y	Y
PSERS (Old and New)	Y	Y	Y
Non-Taxable (Deduction Type "I")	N	N	N
Fringe Benefits (Deduction Code "00")	Y	Y	Y
Imputed Income (Deduction Type "F")	Y	Y	Y
Non-Qualified Plan 457 (Deduction Code "07")	Y	Y	Y

C2. Employer W-2 Reports - Samples

C2.1. Social Security Duplicate/Address Error Report and Merged Records – Example

Note the following error example:

<mark>EMPLOYEE 87276 TO2LIVER, BO2G L. AND EMPLOYEE 87277 TO2LIVER, BO2G   HAVE THE SAME SS # 999-08-7277</mark>

*The above error typically indicates a spelling difference in the first, middle, or last name fields on the employee record for the merged employee ids. In the example above, employee id 87276 has a middle initial **L.** and employee id 87277 does not have a middle name field. In many cases an error may be caused because one record may have a period after the initial (**L.**) and the other record may not (**L**); this will be a fatal error when producing W-2 forms.*

Step	Action
5	Enter or verify the year (CCYY) in the **W2 Year to be Selected** field. *Based on the field's entry, PCGenesis will print the corresponding forms for the calendar year entered.*
6	If the school district/system has a **Dependent Care Plan**: Enter or select the drop-down selection icon ▼ in the deduction code in the **Dependent Care Assistance** field. The deduction amount will be reported in Box 10 of the W-2.
7	If the school district/system has a **Roth IRA under a 401(k) Plan**: Enter or select the drop-down selection icon ▼ in the **Roth IRAs to a 401(k)** deduction code field(s). The deduction amounts will be accumulated and reported in Box 12 of the W-2 with a label of 'AA'.
8	If the school district/system has a **Roth IRA under a 403(b) Plan**: Enter or select the drop-down selection icon ▼ in the **Roth IRAs to a 403(b)** deduction code field(s). The deduction amounts will be accumulated and reported in Box 12 of the W-2 with a label of 'BB'.
9	If the school district/system has a **Roth IRA under a 457(b) Plan**: Enter or select the drop-down selection icon ▼ in the **Roth IRAs to a 457(b)** deduction code field(s). The deduction amounts will be accumulated and reported in Box 12 of the W-2 with a label of 'EE'.

Step	Action
10	If the school district/system has **Other health deductions**: Enter or select the drop-down selection icon ▾ in the deduction code(s) in the **Other health deductions** field(s). The deduction amounts will be accumulated and reported in Box 12 of the W-2 with a label of 'DD'. The amounts for the other healthcare deductions will be added to the SHBP deduction amounts which PCGenesis automatically includes. Box 12, label 'DD' reports major medical (SHBP deductions). Label 'DD' should also include other medical insurance amounts such as hospital indemnity or specified illness (e.g. cancer, heart, etc.). Optional costs to include in label 'DD' include dental or vision plans. The Cost of Employer-Sponsored Health Coverage should include both the employ<u>er</u> and employ<u>ee</u> paid portions of the cost, is informational only, and is NOT taxed.

F1. Downloading and Installing the AccuWage Software

Although these instructions display the Windows® Server 2008 Operating System screenshot examples, and may vary slightly for other operating systems, PCGenesis users may use the instructions with all operating systems.
Step	Action
1	Using the Microsoft® Internet Explorer Web browser, access: http://www.ssa.gov/employer/accuwage/index.html.
2	Select the **Download AccuWage – CCYY Tax Year** link. *If Java has not been installed on the PCGenesis server, select **Download Java Now** and install Java before downloading the AccuWage software.*

The following screen displays briefly:
The following screen displays:
Step	Action
3	When the *Security Information* warning dialog box displays, select [Run] (**Run**).
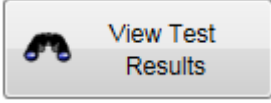

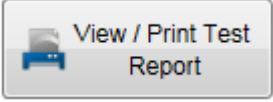

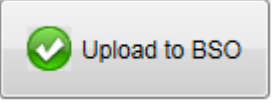

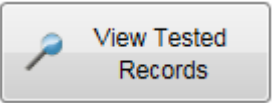

F2. W2REPORT File Verification via AccuWage

Step	Action
1	From the *Taskbar,* select **Start → All Programs → AccuWage CCYY** or from the desktop select ![AccuWage 2014 icon] (the AccuWage CCYY Java) icon.
2	When the *AccuWage Welcome* window displays, select [Start Testing] (**Start Testing**), and navigate to **K:\Second\PAYSSA**.

The following window displays:

Step	Action
3	Locate the *W2REPORT* file created in *Procedure E: Printing Employees' W-2 Statements and Creating the Electronic Media File* and select [Open] (**Open**). The message, "*Processing Record Number…*" displays briefly at the bottom of the screen.

Step	Action
4	If the message, "*AccuWage Errors that Need to be Corrected*" displays, select the appropriate option from the right side of the screen.
	To view the *Error Report* on-line, select [View Test Results] (View Test Results).
	To print the *Error Report*, select [View / Print Test Report] (View/Print Test Report).
	Using the *Record selector/error message explanation feature* within the *AccuWage Errors that Need to be Corrected* dialog box, and other resources including those provided on the SSA's website, make the corrections to the employee information, and repeat the appropriate procedure within this document.
	Proceed to *Step 7*.
5	**NOTE:** Some records in the W2REPORT file may be highlighted with an **Alert** [⚠ ALERT] symbol. The alert messages may be ignored because they are informational only.
	The most common alert [⚠ ALERT] message is on Record 2 of the W2REPORT file. If the following message is displayed, this message may be ignored:
	This alert is informational only. Submitter EIN [Position 3-11] and Employer/Agent EIN [Position 8-16] are an exact match. Please verify that you intended to have the Submitter EIN and Employer EIN match before proceeding. No further action is needed if this was intentional.
6	If **no errors** are detected, the file may be uploaded to the Business Services Online Web site. Select [✓ Upload to BSO] (Upload to BSO) and follow the instructions to submit the file to the Social Security Administration.
	Otherwise, select [🔍 View Tested Records] (View Tested Records) in order to view the records in the *W2REPORT* file.
7	Select **Exit** to close *AccuWage*.

G2. State of Georgia – Department of Revenue File Submission

The Georgia Department of Revenue (DOR) requires employers reporting 250 or more income statements to submit them via electronic or magnetic media. Employers reporting less than 250 income statements have the option of filing them via paper copies or electronic or magnetic media.

Step	Action
1	After creating the electronic media and uploading the SSA's file, create the media for the Department of Revenue. (The Department of Revenue uses a predefined record within the SSA's file.)
	From *Windows® Explorer,* access **K:\SECOND\PAYSSA**.
	• The **W2REPORT** file is the Federal MMREF file required by the Georgia Department of Revenue.
	• The **1003.csv** file is the G-1003 file required by the Georgia Department of Revenue.
	Follow the instructions to submit the Federal MMREF file and G-1003 file electronically.
	Follow the instructions at: <u>https://gtc.dor.ga.gov/_/</u> to upload the files electronically via the Web.
